

Secrets of
GREAT ART!

FEATURING THE
HEMP AVENGER

Van Gogh, Rembrandt, Vermeer. Art historians all agree: These artists have withstood the test of time!

But did you know all these masterworks were painted on hemp canvas? That's right!

That's it! A masterpiece!

Even Van Gogh's PAINTS were made from hemp!

This secret of great art even extends to architecture. These ancient Roman aqueducts, made with hemp infused concrete, have lasted for thousands of years!

So try hemp in your next art project! It's the secret of the great masters!

The Hemp Avenger in... The Fiber to Save Our Forests

This single acre of industrial hemp produces more than 4 times as much fiber as an acre of trees!

The secret is in the stalk of the hemp plant!

LOOK

SNAP!

hemp hurds

hemp fibers

The hemp stalk can be broken down into two major parts: the long stringy fibers, and the woody hurds.

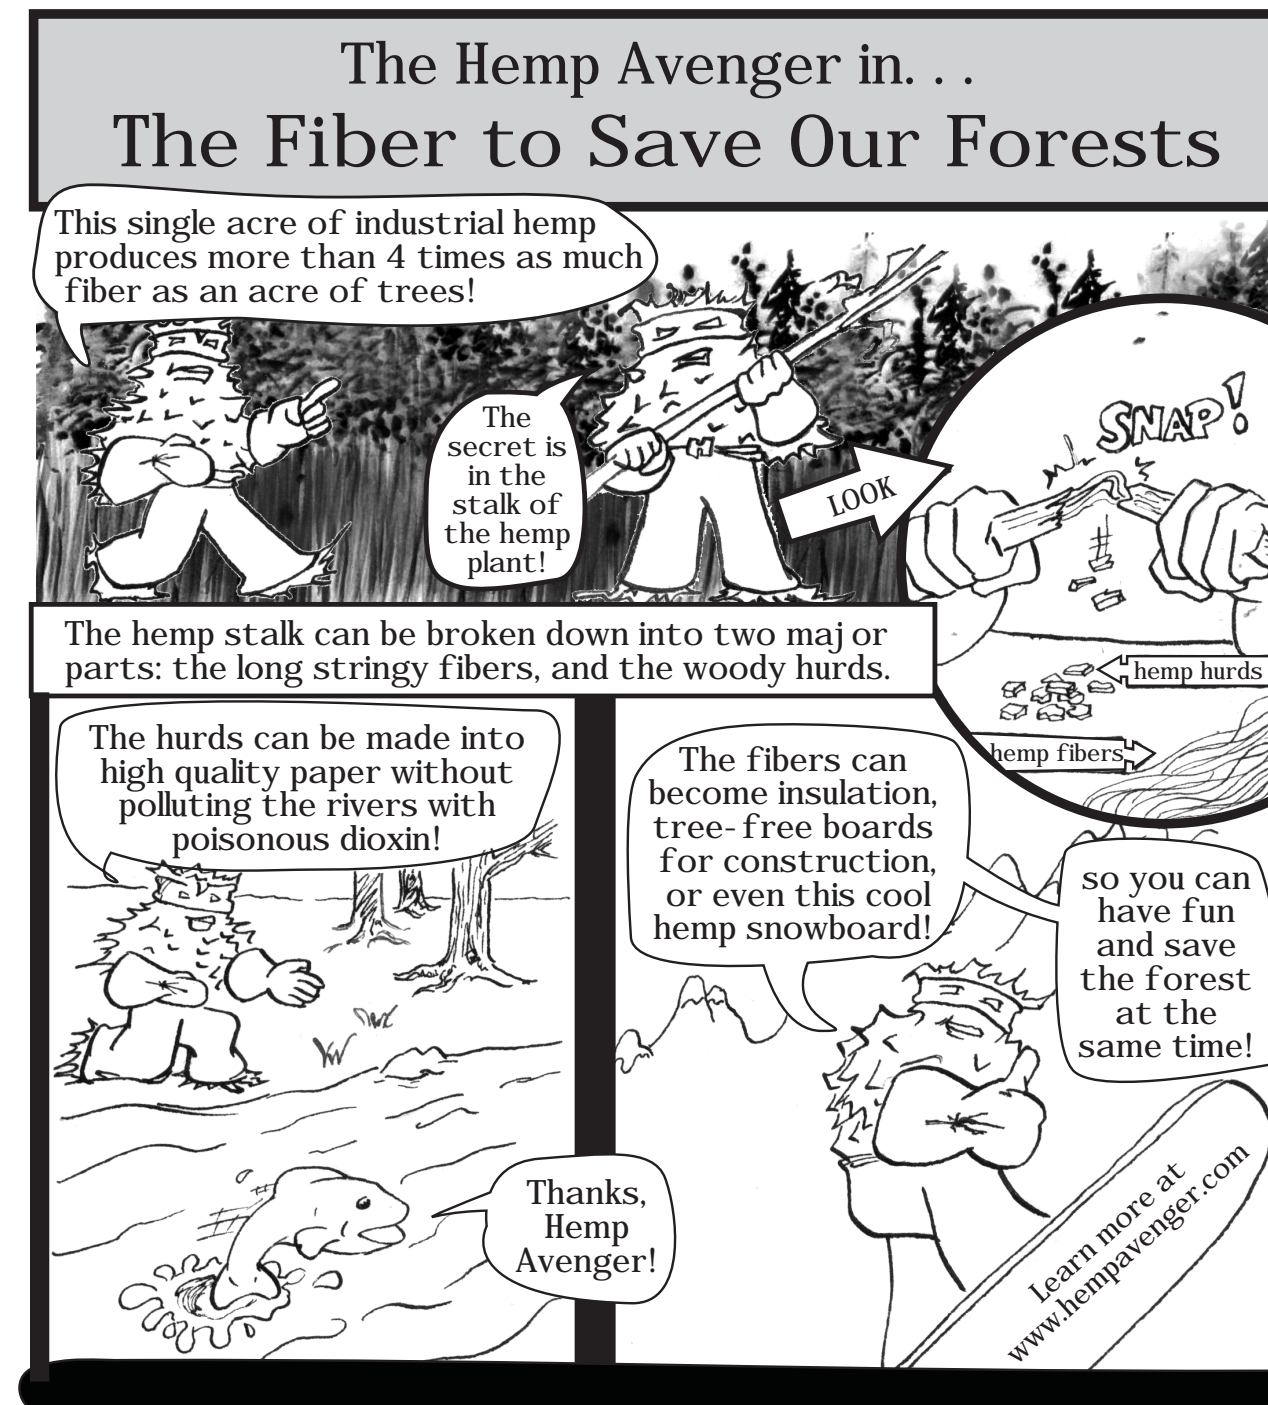

The hurds can be made into high quality paper without polluting the rivers with poisonous dioxin!

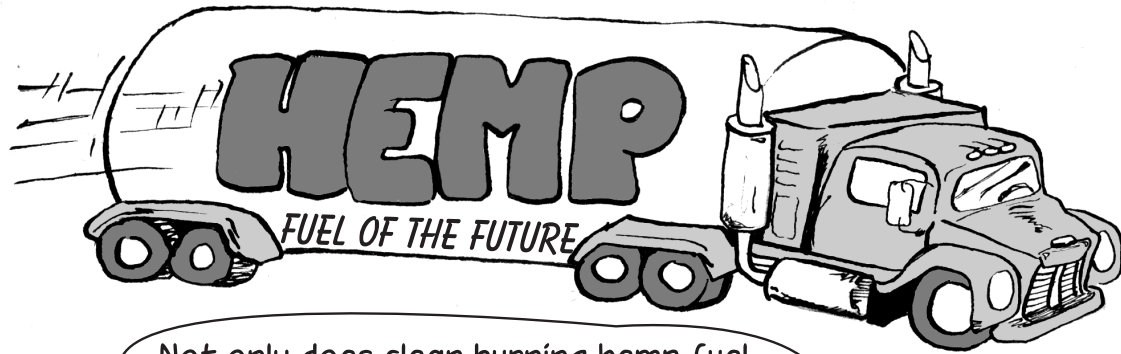

The fibers can become insulation, tree-free boards for construction, or even this cool hemp snowboard!

so you can have fun and save the forest at the same time!

Thanks, Hemp Avenger!

Not only does clean burning hemp fuel cut down on greenhouse gases, but it cuts down on dirty engine buildup that can shorten engine life! Take it from The Hemp Avenger! I wouldn't trust the hempmobile with anything less than hemp fuel!

THE HEMPMOBILE

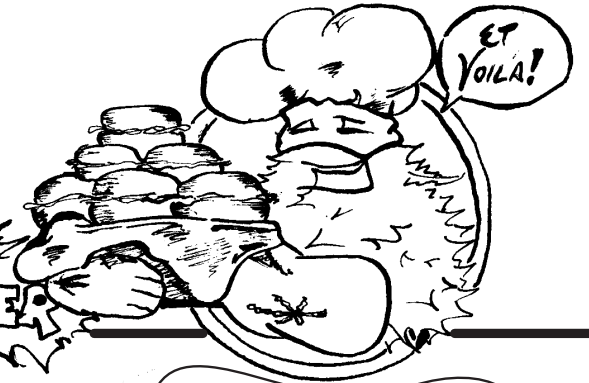

REDUCES DEPOSITS • PROLONGS ENGINE LIFE
